ALEX SERVIN

Full-Stack Developer

San Antonio, TX, USA | (210) 848-3751 | aserviin6@gmail.com | servinalex.com

OBJECTIVE:

Developer with solid foundation in modern front-end technologies. Lead a team and created a full-stack solution for a startup. Looking to be part of team, where I can flex my abilities and help a company achieve greater success.

PROJECTS:

INDIECOSM   Present

Lead Developer

- Led the end-to-end development of a Next.js based web app, from ideation to deployment.
- Designed and implemented core features, including the user interface, data storage, responsive design, backend functionality, and user authentication.
- Architected and optimized the frontend/backend stack using Next.js, TailwindCSS, Prisma, PostgreSQL, Zod, Zustand, and Typescript..
- Deployed and maintained the application on Vercel using their hosting and database services.

STREET-COMMERCE   Present

Lead Developer

- Led the development of e-commerce web app, complete with a Stripe payment system via their API.
- Designed landing page layout, and also ensured mobile device responsiveness.
- Implemented Sanity CMS so that new products may be added with ease.
